Adipoyl Chloride, Hexane

SECTION 1 : Identification of the substance/mixture and of the supplier

Product name : Adipoyl Chloride, Hexane

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: S25125

Recommended uses of the product and uses restrictions on use:

Manufacturer Details:

AquaPhoenix Scientific
9 Barnhart Drive, Hanover, PA 17331

Supplier Details:

Fisher Science Education
15 Jet View Drive, Rochester, NY 14624

Emergency telephone number:

Fisher Science Education Emergency Telephone No.: 800-535-5053

SECTION 2 : Hazards identification

Classification of the substance or mixture:

Health hazard

Specific target organ toxicity following repeated exposure, category 2
Aspiration hazard, category 1
Reproductive toxicity, category 2

Irritant

Skin irritation, category 2
Specific target organ toxicity following single exposure, category 3

Environmentally Damaging

Chronic hazards to the aquatic environment, category 3

Corrosive

Serious eye damage, category 1

Flammable

Flammable liquids, category 2

STOT SE 3

Eye Damage. 1

Aspiration Tox.1

Flammable Liq. 2

Aquatic Chronic 2

Reproductive 2

Skin Irritation, Category 2

STOT RE 2

Signal word :Danger

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 02.17.2015

Page 2 of 8

Adipoyl Chloride, Hexane

Hazard statements:

Highly flammable liquid and vapour
May be fatal if swallowed and enters airways
Suspected of damaging fertility or the unborn child
Causes skin irritation
May cause damage to organs through prolonged or repeated exposure
May cause drowsiness or dizziness
Causes serious eye damage
Toxic to aquatic life with long lasting effects

Precautionary statements:

If medical advice is needed, have product container or label at hand
Keep out of reach of children
Read label before use
Wash skin thoroughly after handling
Avoid release to the environment
Take precautionary measures against static discharge
Wash skin thoroughly after handling
Use only outdoors or in a well-ventilated area
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Wear protective gloves/protective clothing/eye protection/face protection
Keep away from heat/sparks/open flames/hot surfaces. No smoking
Use explosion-proof electrical/ventilating/light/equipment
Do not breathe dust/fume/gas/mist/vapours/spray
Wear protective gloves/protective clothing/eye protection/face protection
Ground/bond container and receiving equipment
Keep container tightly closed
Use only non-sparking tools
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing
Immediately call a POISON CENTER or doctor/physician
Specific treatment (see supplemental first aid instructions on this label)
Take off contaminated clothing and wash before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Call a POISON CENTER or doctor/physician if you feel unwell
IF exposed or concerned: Get medical advice/attention
If skin irritation occurs: Get medical advice/attention
Get Medical advice/attention if you feel unwell
Do NOT induce vomiting
In case of fire: Use agents recommended in section 5 for extinction
IF ON SKIN: Wash with soap and water
Collect spillage
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Store locked up
Store in a well ventilated place. Keep cool
Dispose of contents and container to an approved waste disposal plant

Other Non-GHS Classification:

WHMIS

Safety Data Sheet

HMIS RATINGS (0-4)

SECTION 3 : Composition/information on ingredients

Ingredients:		
CAS 110-54-3	n-Hexane	95.4 %
CAS 111-50-2	Adipoyl dichloride	4.6 %
Percentages are by weight		

SECTION 4 : First aid measures

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Seek immediate medical advice.

After skin contact: Flush the skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Rinse/flush exposed skin gently using soap and water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

After eye contact: Continue rinsing eyes during transport to hospital. Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek immediate medical attention.

After swallowing: Rinse mouth thoroughly. Never give anything by mouth to an unconscious person. Seek immediate medical attention. Do not induce vomiting.

Most important symptoms and effects, both acute and delayed:

Irritation. Headache. Nausea. Shortness of breath. Drowsiness.; Suspected of damaging fertility.

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 02.17.2015

Page 4 of 8

Adipoyl Chloride, Hexane

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention provide SDS document to physician. Physician should treat symptomatically.

SECTION 5 : Firefighting measures

Extinguishing media

Suitable extinguishing agents: Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

For safety reasons unsuitable extinguishing agents:

Special hazards arising from the substance or mixture:

Thermal decomposition can lead to release of irritating gases and vapors.

Advice for firefighters:

Protective equipment: Wear protective eyewear, gloves, and clothing. Refer to Section 8. Use NIOSH-approved respiratory protection/breathing apparatus.

Additional information (precautions): Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing. Flashback along vapor trail may occur.

SECTION 6 : Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation. Ensure that air-handling systems are operational.

Environmental precautions:

Should not be released into environment. Prevent from reaching drains, sewer, or waterway.

Methods and material for containment and cleaning up:

Soak up with inert absorbent material and dispose of as hazardous waste. Wear protective eyewear, gloves, and clothing. Refer to Section 8. Always obey local regulations. Containerize for disposal. Refer to Section 13. If necessary use trained response staff or contractor. Evacuate personnel to safe areas. Keep in suitable closed containers for disposal.

Reference to other sections:

SECTION 7 : Handling and storage

Precautions for safe handling:

Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Follow proper disposal methods. Refer to Section 13. Do not eat, drink, smoke, or use personal products when handling chemical substances.

Conditions for safe storage, including any incompatibilities:

Store in a cool location. Keep away from food and beverages. Protect from freezing and physical damage. Provide ventilation for containers. Keep container tightly sealed. Store away from incompatible materials. Keep away from heat, sparks, or flame. Take measures to prevent the accumulation of static charge.

SECTION 8 : Exposure controls/personal protection

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 02.17.2015

Page 5 of 8

Adipoyl Chloride, Hexane

Control Parameters:	110-54-3, n-Hexane, NIOSH (TWA) 50 ppm TWA; 180 mg/m ³ TWA 110-54-3, n-Hexane, OSHA (PELs) 500 ppm TWA; 1800 mg/m ³ TWA 110-54-3, n-Hexane, OSHA (STEL) 1000 ppm STEL; 3600 mg/m ³ STEL
Appropriate Engineering controls:	Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. Use in a Chemical Fume Hood. Ensure adequate ventilation to ensure the Lower Explosive Limit (LEL) is not reached.
Respiratory protection:	Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.
Protection of skin:	Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.
Eye protection:	Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.
General hygienic measures:	Perform routine housekeeping. Wash hands before breaks and at the end of work. Avoid contact with skin, eyes, and clothing. Before wearing wash contaminated clothing.

SECTION 9 : Physical and chemical properties

Appearance (physical state,color):	Clear, colorless liquid	Explosion limit lower: Explosion limit upper:	1.2% (Hexane) 7.7% (Hexane)
Odor:	Gasoline-like	Vapor pressure:	5.6 @ 100F
Odor threshold:	Not Determined	Vapor density:	3.0
pH-value:	Not Determined	Relative density:	Not Determined
Melting/Freezing point:	Not Determined	Solubilities:	Insoluble
Boiling point/Boiling range:	63 - 68 deg C	Partition coefficient (n-octanol/water):	Not Determined
Flash point (closed cup):	-22 C	Auto/Self-ignition temperature:	234.0 °C (453.2 °F) (Hexane)
Evaporation rate:	8.10	Decomposition temperature:	Not Determined
Flammability (solid,gaseous):	Flammable	Viscosity:	a. Kinematic: Not Determined b. Dynamic: Not Determined
Density: Not Determined			

SECTION 10 : Stability and reactivity

Reactivity: Nonreactive under normal conditions.

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 02.17.2015

Page 6 of 8

Adipoyl Chloride, Hexane

Chemical stability: Stable under normal conditions.

Possible hazardous reactions: Flammable vapor may form explosive mixtures with air.

Conditions to avoid: Incompatible materials. Heat, hot surfaces, open flames, and sources of ignition.

Incompatible materials: Strong oxidizers, acids, and bases.

Hazardous decomposition products: Carbon oxides, Hydrogen chloride gas

SECTION 11 : Toxicological information

Acute Toxicity:		
Oral:	LD50 Oral - Rat - 25,000 mg/kg (Hexane)	Rat
Inhalation:	LC50 Inhalation - Rat - 4 h - 48000 ppm (Hexane)	Rat
Chronic Toxicity: No additional information.		
Corrosion Irritation:		
Ocular:	Mild eye irritation (Hexane)	Rabbit
Sensitization:	No additional information.	
Single Target Organ (STOT):	STOT Single Exposure - May cause drowsiness or dizziness (Hexane). STOT Repeated Exposure - Ingestion - May cause damage to organs through prolonged or repeated exposure (Hexane)	
Numerical Measures:	No additional information.	
Carcinogenicity:	No additional information.	
Mutagenicity:	No additional information.	
Reproductive Toxicity:	Suspected of damaging fertility.	

SECTION 12 : Ecological information

Ecotoxicity

Acute Toxicity: 96 Hr LC50 Pimephales promelas: 2.1 - 2.98 mg/L [flow-through]

Persistence and degradability: Not Determined

Bioaccumulative potential: Not Determined

Mobility in soil: Not Determined

Other adverse effects: Not Determined

SECTION 13 : Disposal considerations

Waste disposal recommendations:

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

SECTION 16 : Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
